TAKING OF LAST CENSUS DISCUSSED

Motion of Censure Defeated Several Supplementary Estimates Passed.

(Bulletin Special Dispatch.)
Ottawa, Oct. 12.—Today began the eighth month of the session.

A motion of censure in respect to the taking of the recent census was debated most of the day. It was defeated by 69 to 39 votes. The motion asked for censure because the cost was greater than that of ten years ago. The minister of agriculture showed that the cost was necessarily greater and besides was complete and accurate as the previous census was not.

Supplementary estimates were passed, and also Indian and Interior supplementary.

WEATHER

The weather has been fine and bright throughout the North-West Territories and Manitoba. The temperature was between 60 and 70 yesterday in the west and no frost was reported last night. The prospects are favorable for fine and warmer weather.

LOOKS LIKE WAR

Port Arthur, Oct. 9.—A Japanese squadron is manoeuvring off Corea. The Russian fleet is perfectly ready. It is lying with steam up and the vessels are painted as in war time. It is denied here in the highest quarters that the Japanese are landing troops.

LOCAL

—Train left Red Deer on time.

—Supreme Court sits in Edmonton the last Tuesday in the month, October 27th.

—A drive of logs is coming down the river today for D. R. Fraser and Company.

—A letter from Ottawa says the Dominion parliament will probably adjourn tomorrow.

B. S. Jenkins, general superintendent of the C. P. R. telegraph, and C. H. Powell, inspector of C. P. R. telegraphs, paid a flying visit to Edmonton last night.

—Pansies are blossoming in great profusion in G. H. Graydon's garden. A large bunch pulled this morning, October 13th were left at the Bulletin office.

—Miss E. Belamy has commenced her physical culture class in the vestry of the Baptist church and they will be held regularly Monday and Thursday evenings.

—The annual meeting of the W. C. T. U. will be held at the home of Mrs. Colin Beale on Wednesday afternoon next at half past three o'clock. A full attendance is requested.

—The Imperial Bank of Canada is calling in all its old and is issuing handsome new bills. New designs and new paper are being used, the manufacturers being Waterloo and Sons, of London, England.

—Fort Saskatchewan Reporter.—There is a rumor afloat that the Police Reserve of 500 acres has already been purchased by the G. T. Pacific and that their depot and workshops are to be located thereon.

—The Ladies Aid Society of the Presbyterian church will hold their annual sale of work and tea on Tuesday, October 20th. Ladies will confer a favor by sending in their contributions before the above date.

—L. J. O. Farrell, representing the Henderson Directory Publishing Company, Limited, of Winnipeg and Vancouver, has commenced on the Edmonton city directory for 1904, which will be included in the Manitoba and Northwest Territories Directory, which is being gotten out by Henderson and Company.

—Nearly all the new machinery has been installed in Fraser's new sawmill. It is of the very latest design and is ponderous in size. The boilers are in place and have all been bricked in. The present mill is running at its utmost capacity and is turning out an immense amount of lumber for the local demand and also for shipping down the river to Fort Pitt and Battleford.

—The townspeople are beginning to lay in large supplies of coal for the coming winter. Numerous barges are constantly unloading along the river and a very large amount is now being hauled from the mines to the town. The mine owners say that they could fill three times as many scows as they are now getting, provided there was the necessary additional transportation.

—The following item appears in the last issue of the Ponoka Herald: The yield of 286 pounds from five pounds of potatoes reported as grown by Mrs. Hall a couple of weeks ago was good; that of 302 1/2 pounds from 3 pounds by John Dickson was better; but neither one is very large compared to what Joe Reid did. From five pounds planted last spring he dug last week 560 pounds of fine large potatoes. Next!

—There is some misunderstanding as to the way in which Perry, now committed for trial, was first suspected of dealing in stolen furs. Some time ago Revillon Freres sent notice to Mr. Davies, of Strathcona, that they had lost a quantity of furs, giving him a description of the furs lost. This was done in order that Mr. Davies might identify any person offering such furs for sale. A sharp lookout was kept and when Mr. Perry entered Davies' store he was at once looked on as a suspicious character. Mr. Davies instructed his clerk to detain him by examining the furs while he phoned to Revillon Freres and asked them to send over a constable. When Constable Dean arrived he at once arrested the man on suspicion.

DEATHS

SQUAREBIGGS.—At Edmonton on Saturday, October 10th, Miss Jenny Squarebiggs, aged 17 years, and 6 months.

The funeral will take place to Sunnyside cemetery on Tuesday, October 13th, at 3 p.m.

THE GREAT MATCHMAKER

E. B. Eddy, the Match and Paper Manufacturer Is in Edmonton.

A gentleman whose name is known from one end of Canada to the other is in Edmonton today. The business man of the large centres of population the farmers on the plains and the lonely traders in the northern wilds all know Mr. Eddy as the great match maker. His name is a household one all over Canada. Mr. Eddy is accompanied by Mrs. Eddy, who enjoys the trip and shows just as active an interest in the problems of the great west as does her husband.

Mr. Eddy distinctly states that he is not in the west on a business trip but for pleasure and to satisfy himself that all that is being said of the west is true and accurate. He was in the west a few years ago and marvels at the prosperity and advancement of the west since that time. He dwells on the greatness of Winnipeg and feels assured that in Edmonton there will be another Winnipeg. He is delighted with the situation of Edmonton, with the amount of building in progress, and with the general rush of business. He speaks enthusiastically of the country north of Edmonton and smiles contemptuously at the narrow mindedness of many eastern people who think that the time is not ripe for the building of another transcontinental railway. Mr. Eddy believes that in ten years there will be just as much agitation for a railway north of the proposed route of the Grand Trunk Pacific railway as there is today for the Grand Trunk Pacific. Mr. Eddy believes that when the Grand Trunk Pacific strikes Edmonton that large wholesale establishments will spring up which will lead to Edmonton being Winnipeg's rival.

Mr. and Mrs. Eddy have caught the spirit of the west and Mrs. Eddy maintains that where she a young man she would certainly "come west."

They will spend a couple of days in Edmonton before resuming their trip through the west.

SPLENDID EXHIBITION

Vermilion Valley and Beaver Lake Exhibition a Great Success.

The first agricultural fair was held at Vagreville the 30th ultimo.

The weather was everything that could be desired and there was a large attendance, every part of the society's district being well represented. The entries in the various classes of horses, cattle, sheep, swine and poultry were not so numerous as perhaps they should have been, but, considering that this was the society's first attempt, on the whole the result must be considered as very successful.

The vegetable classes were a fine display and it would be difficult to get together finer specimens of the various agricultural products from any other district in the Territories. The exhibits in the various industrial departments were also of high merit and a credit to their energetic exhibitors.

When the limited time for organization, and the many difficulties to be surmounted in getting such an undertaking floated, the fair can only be described as highly successful.

There were many visitors from outlying districts. We noticed welcome representatives from Strathcona, Edmonton and other places. Everyone must have been struck with the orderly and quiet behavior of all present, and there must have been much admiration for the management.

The result of the management everything went off without a hitch, one and all apparently being quite satisfied with the decisions of the various judges.

A good program of sports was drawn up for the benefit of the younger members of the Association. The management of this portion of the day's proceedings was put into the hands of Messrs Tremblay and Still, and passed off without a jar. There were three entries in the competition for the cup in the baseball contest, but only two teams put in an appearance, viz. Toileid and Spring Creek. After an interesting struggle the coveted cup fell to the Toileid team.

Altogether the president and energetic woodie, and the genial and energetic secretary treasurer, G. W. Robert, and the other officers and committees responsible for the carrying on of the whole proceedings are to be congratulated on the great success which crowned their efforts, and everything points to this fair in the near future becoming second to none in the Northwest Territories.

During the afternoon Mr. Rutherford, M.L.A., gave a short address. After expressing his surprise at the progress made in the district, judged by the display of agricultural and industrial products exhibited in the various classes, he went on to explain to his hearers the different matters which the Legislative Assembly have more particularly to deal with and control, such as roads and bridges, schools, agricultural societies, etc.

The Rev. Wm. Rae was then called upon to speak, and gave an amusing, patriotic and very interesting address on Canada.

No report would be complete which made no reference to the work done by the ladies of the district. The work displayed in their department was of a high order and a great deal of praise, perseverance, and industry.

Such a collection of articles as they were able to place before the judges.

THE TRANSCONTINENTAL RAILWAY

In order that the public may judge of the merits of the new transcontinental railway proposals, a synopsis of the bill is given herewith, clause by clause.

The bill is divided into two parts. The first part is the bill proper, which empowers the government to construct the eastern section of the line and to fulfill the terms of the agreement entered into with the Grand Trunk Pacific Company. The second part is the agreement between the company and the government, and appears as a schedule to the bill.

THE BILL.

Preamble.
The preamble of the bill sets out that by reason of the growth in population and the rapid development in the productivity and trade of Canada and especially of the western part thereof, and with a view to the opening up of new territory available for settlement, and in the eastern provinces and in the west, and the forwarding of transportation facilities for such territory, and for other reasons, the necessity has arisen for the construction of a national transcontinental railway, to be operated as a common railway highway across the Dominion of Canada, from ocean to ocean and wholly within Canadian territory.

General Provisions.
1. Names the act "The National Transcontinental Railway Act."
2. Confirms the agreement between the Grand Trunk Pacific Railway and the government.

3. Legalizes the mortgages to be given by the company to the government.

4. All bonds, mortgages and guarantees to be in form approved by the government.

5. The consolidated revenue fund of Canada becomes liable for the principal and interest of the bonds of the company guaranteed by the government as soon as the guarantee has been signed on behalf of the government.

6. The government has the right of foreclosure in respect of bonds upon which it has paid either interest or principal, because of its guarantee.

The first ten years interest on the western division of the mountain section excepted.

7. The Grand Trunk company may hold and deal in securities of the Grand Trunk Pacific company.

The agreement with the Grand Trunk Pacific does not become binding upon the government until the Grand Trunk company has agreed with the government to guarantee the bonds of the Grand Trunk Pacific for the balance of cost on the western division, over and above the government guarantee, and to take up the total issue of the common stock of the Grand Trunk Pacific, amounting to \$25,000,000, which it must hold during the term of lease of the eastern division, Eastern, or Government Section.

8. The government constructs the railway from Moncton to Winnipeg.

9. Construction of this division is to be managed by three commissioners appointed by the government.

10. A secretary of the commission and a chief engineer are to be appointed by the government.

11. The commissioners appoint all employees except the secretary and chief engineer.

12. Security must be given by all employees who are entrusted with money.

13. The commissioners may take any lands required for the purposes of the railway, subject only to claims for compensation.

14. Public lands of Canada required for the purposes of the eastern division may be set apart by the government.

15. The commissioners have all the powers of a railway company.

16. Contracts for construction must be let by tender to the lowest bidder after public advertisement, but no contracts over \$10,000 may be let until sanctioned by the government.

17. A portion of the payments on contracts must be held back as security.

18. No money to be paid except on certificate of the chief engineer approved by the commissioners.

19. No member of parliament may hold a paid office under the commissioners or be a party to any contract let by them, under penalty of disqualification. The same applies to the western division until it is opened for traffic.

20. Salaries of the commissioners, secretary and chief engineer to be fixed by the government, and the salaries of all other officials to be subject to government approval.

21. Work on the eastern division may be suspended at any time by order of the government until the following session of parliament.

22. Payments on construction account are made from time to time by the government, but no money may be paid on construction account until it has been voted by parliament.

23. The government is empowered to borrow money to pay for construction.

24. The rate of interest on such

bonds must not exceed three and a half per cent.

25. Debentures are issued by the commissioners from time to time, as money is required. The debentures are dated on the day of issue, but all become repayable fifty years from July 1st, 1903, and bear interest at three per cent, payable half yearly.

26. These debentures are a first charge on the eastern division and on its revenues after paying running expenses.

27. The commissioners may construct a telegraph line or telephone lines from Moncton to Winnipeg. The cost to form part of the cost of construction, upon which rental must be paid. The revenue to be treated as part of the revenue of the railway.

28. Monthly accounts of all expenditures and liabilities must be furnished the government by the commissioners.

29. Books of account must be kept, which are open to inspection at all times by proper officers of the government.

30. An annual report for the information of parliament must be made by the commissioners, and must be presented to parliament within fifteen days after being made, if parliament is in session; or within fifteen days after the meeting of parliament.

31. Receipts and expenditures under the authority of the commissioners are to be audited by the Auditor General as provided in section 50 of the Audit Act.

32. Bonds and debentures are to be registered by being deposited with the Secretary of State.

33. Interprets Clause 17 of the agreement and expressly states that duties must be paid on all material imported into Canada for the construction of the eastern division, but material imported directly by the government for betterments after completion are to be exempt from duty.
